Bill Number

Subject: Detritor Cover Installation Bid Award 59B-2013

Summary Statement: The Post Point Wastewater Treatment Plant utilizes two Detritor Tanks to remove grit from the wastewater influent to the plant. The tanks are located in a building but are not currently covered. The current ventilation rate of 14 air changes per hour (ACH) is currently used to control odor and moisture in the building; unfortunately, we continue to have increased odor from the facility. Staff conducted an engineering study and found that the best solution for additional odor reduction would be the addition of fabric covers. This bid will allow for the addition of those covers. There were 51 bid solicitations with two vendors submitting bids: Inmac of Mount Vernon, WA at \$170,152.45 and Razz Construction from Bellingham, WA at \$188,866.25. Both bids included WA State sales tax. The lowest responsive and responsible bidder was Inmac of Mount Vernon, WA for \$170,152.45

Previous Council Action: None

Fiscal Impact:

Funding Source: Sewer Budget
