Bill Number

Subject: Ordinance Amending Bellingham Municipal Code 15.36.020 Relating to Wholesale Sewer Services Outside City Limits.

Summary Statement: Bellingham Municipal Code 15.36 authorizes the City to contract to provide wholesale sewer services to districts or associations outside city limits. The code requires all new contracts to prohibit sewer main extensions in rural areas and further requires all new contracts to prohibit the district or association from enlarging its area of jurisdiction or service without the approval of City Council. The proposed ordinance repeals these provisions and replaces them with the requirement that all new contracts mandate compliance with the Growth Management Act and other state laws pertaining to the extension of sewer services in rural areas. The proposed ordinance aligns city code with state law while retaining flexibility for the City to impose additional contractual limitations on the provision of sewer services in rural areas tailored to the circumstances of each contract.
