Dear Mr. Sundin,

I am writing to you about the street vacation petition for the unimproved alley abutting Lots 14-18. Block 130. My property abuts this lot.

When Mr. Morris bought this lot a few years ago he assured me that he was just saving it from development and would not be building on it. Now he has changed his mind.

Please consider that The Fairhaven Neighborhood Association is attempting to save trees and add more trees to the neighborhood to counteract the effects of climate change. They have an action plan in place. Cutting down a heavily wooded lot to build another house is not in the neighborhood plan.

I strongly disagree with Mr. Morris's plan to develop this lot and hope that you will consider that the cutting of more trees is detrimental to all of our futures on this changing planet .
