INFORMATIONAL

STM - EXPOSED SOILS: Denuded areas shall be stabilized in conformance with BMC 15-42. From October 1 through April 30, no substantially unworked soil areas shall remain exposed for more than 2 days. From May 1 through September 30, no substantially unworked soil areas shall remain exposed for more than 7 days. Contact Public Works Engineering at 360-778-7900 with questions. \r\r

INFORMATIONAL

STM - SPEC. STORM REQ: This project is deemed to not require a stormwater permit from the City of Bellingham due to the size and nature of the work. If land disturbance exceeds 500 square feet and/or new/replaced hard surface exceed 300 square feet, additional stormwater permitting will be required. \r
\r

No materials, equipment or debris may be handled or stored in a manner that may contaminate stormwater leaving the site. Such occurrences are in violation of City, State and Federal laws regarding stormwater. If work is contemplated that may cause a discharge of materials to stormwater it is the responsibility of the applicant to prevent such occurrences and/or apply for a stormwater permit to assure compliance through an approved stormwater site plan.\r\r

For questions regarding this project, your contact in The Permit Center is:

Name: **Permit Center** Phone: **(360) 778-8300** Email: **permits@cob.org**
