- Anticipating a Stewardship Coordinator position in 2025 that will oversee the growing Community Garden program

Park Ambassador Program

- Safety, Outreach, Education
- Support reservations/events, Recreation programs, litter abatement, graffiti removal, Bark Stewards, and Volunteer outreach
- Crucial part of a coordinated department effort to mitigate abandoned vehicles and overnight campers in parks

Outreach for Fishing in Whatcom Creek

- These hatchery Chinook salmon, raised by Bellingham Technical College's Fisheries & Aquaculture Sciences, are not native to Whatcom Creek but **play a vital role in our marine ecosystem**
- These Chinook were not raised to migrate up Whatcom Creek, but instead were **raised to support orcas and fisheries** in marine waters. Management strategies and decisions are the responsibility of the State and local tribes
- **Harvesting is both ethical and legal under WDFW regulations.** Tribal openings may differ from commercial and recreational openings

Current regulations, locations, and species

This fall, Park Ambassadors were a central part of a coordinated department effort to educate the public about seasonal hatchery Chinook fishing in Whatcom Creek at Maritime Heritage Park.

Washington Conservation Corps Crew (WCC) secured for 2024/25

WCC Mission: To conserve and enhance the natural resources of Washington while providing meaningful service opportunities to young adults and military veterans.

- 6 person crew shared between Parks and PWNR
- 11 weeks of Environmental Justice
- Focus on restoration sites and wetland mitigation sites

THANK YOU Parks Volunteer Program restoration partners

- Community engagement is a critical component of successful restoration efforts – it cultivates a sense of place and supports democracy.
