

Parks & Recreation Department City of Bellingham

MEMORANDUM

To: Parks and Recreation Advisory Board Members
From: Nicole Oliver, Director
Shannon Taysi, Program Specialist for Planning & Community Development
Subject: Birchwood Mural Project
Date: June 14, 2023

The Planning and Community Develop department is working on another public art project. This one will be located on Birchwood at the Interstate 5 underpass. The location is adjacent to the Bay to Baker trail.

The planning team is interested in adding a feature to the mural artwork that would place an interpretive sign on the trail underneath the underpass that highlights the plants used in the mural and their healing features, being that the PeaceHealth parking lot is right there.
